Work

Jan 2016-Jun 2019	**Dropbox**	San Francisco, CA

Title: Software Engineer
Worked on the Free Teams and Restorations teams.
Built out new features on the web app, server backend, desktop, and internal customer support. Improved and ensured reliability. Led a small team doing a codebase migration for 3 months. Developed an inter-team policy.
On the "daily push" rotation that releases the Dropbox web app.

Jan 2015 - Jan 2016	Independent Contractor	San Francisco, CA

Nov 2012 - Jul 2014	Streak	San Francisco, CA

Title: Software Engineer
Designed, implemented, and managed deployment of major features. Worked on backend, frontend, and service integrations. Helped with transformation to turning a profit.

Jul 2011- Oct 2012	Ridejoy	San Francisco, CA

Title: Software Engineer (iOS)
Fixed bugs, added new features and screens to iOS app. Managed transition from team of two to sole developer. Upgraded app for iOS 6 and iPhone 5.

2009-2011	Transmissions, LLC	Cincinnati, OH

Title: Programmer
Researched and evaluated technologies to solve problems. Designed and implemented solutions. Programmed, debugged, and documented major portions of Ubelix, Transmissions's central product, as part of a two-person team.

Education

2006-2011	University of Cincinnati	Cincinnati, OH

BS in Computer Science, BS in Mathematics
GPA: 3.84/4.00, Dean's list 12/12 quarters
